Co-opportunities with ACTI

St James is involved with many different organizations within our community and building the workforce for those who share the same passion for children as we do.

We are very fortunate to have had students from the Early Learning program come to shadow our teaching staff and work hands-on with the children. We currently have Ms. Kendall in the infant room working for us in the afternoons. Some of you have seen Ms. Mea in our preschool room, but spring sports are starting and she enjoys track and field. We hope to have another intern join us soon.

I hope that we can encourage more students to love the work we do and continue to make a difference in children's lives.
